Everyday behind the doors of Wisconsin's public and environmental health lab, WSLH Proficiency Testing is helping labs like yours stay creative and in control of your costs without sacrificing accurate, reliable results.

Located in the beautiful capital city of Madison, Wisconsin, WSLH Proficiency Testing is part of a national public health lab that connects you to a team of experienced Medical Technologists and to an array of relevant resources to help you overcome quality assurance challenges.

WSLH Proficiency Testing has been building a solid foundation for clinical laboratory improvement since 1966. Our program is approved by CMS and is accepted by the College of American Pathologists (CAP), The Joint Commission, and COLA.
